

# DIGIPASS® FX7

**Stop account takeovers, protect your employees and applications, and eliminate passwords with DIGIPASS® FX7, a FIDO-enabled, phishing-resistant authenticator. DIGIPASS FX7 enhances security while simplifying the login process, enabling a ‘work from anywhere, anytime’ policy. Ensure secure access to sensitive data and apps effortlessly and boost productivity without the hassle of managing passwords.**

DIGIPASS FX7 is the ideal multi-factor authentication solution to protect against social engineering attacks. Eliminating the use of passwords greatly reduces the risk of adversary-in-the-middle, adversary-in-the-browser, and replay attacks.

This robust security measure prevents account takeovers and unauthorized access, safeguarding company applications and sensitive information.

DIGIPASS FX7 combines high-assurance security with the best user experience, helping organizations maintain high productivity levels by ensuring that employees can log in quickly and securely without the friction of traditional password-based systems.

Further, the reduction in IT resources needed for password management frees up valuable time and resources, allowing IT departments to focus on more strategic initiatives.

### Go Passwordless and Mitigate Security Risks

Passwordless authentication represents the future of secure access, driven by the need to enhance security and streamline user experiences. Traditional passwords are vulnerable to a range of attacks, including phishing, brute force, and social engineering, making them a weak link in the security chain. By moving to a passwordless system, organizations can eliminate these vulnerabilities and provide a more secure environment for their employees.

Businesses should strive for phishing-resistant solutions to protect their assets and maintain operational continuity. DIGIPASS FX7 not only provides this level of protection but also integrates seamlessly with existing systems, ensuring a smooth transition to a more secure authentication method. Its flexibility and future-proofing make it an essential tool for businesses looking to enhance their security posture.

### Highlights

#### Secure and convenient

- FIDO2-certified device enables passwordless authentication directly in the browser
- Phishing-resistant authenticator protects against password-based attacks
- Easy, one-touch authentication
- Compatible with a wide range of devices and platforms, including Windows 10 and MS Entra ID.

# Create an Unrivaled User Experience

DIGIPASS FX7 offers an unrivaled user experience, combining a high level of security with ease of use. Users authenticate their presence with a simple tap of the device’s luminous button. This streamlines the login process and removes the friction associated with traditional authentication methods. Now employees can focus on their work without being bogged down by cumbersome security procedures.

### How it Works

DIGIPASS FX7 connects to any desktop, laptop, or mobile device via USB-C. To authenticate, users simply touch the button and enter a PIN, verifying their presence in a matter of seconds. This straightforward approach enhances security and improves user satisfaction by making the authentication process quick and hassle-free.

### Ease of Setup and Integration

Setting up DIGIPASS FX7 is a breeze. It requires no additional configuration or software installation, allowing for rapid deployment across the organization. Once set up, it can be used with any FIDO2-enabled service, providing a versatile and seamless authentication experience. This compatibility enables organizations to enhance their security without disrupting existing workflows or requiring extensive IT support.

### Cost-efficient Solution

By eliminating password management, organizations can reduce operational and helpdesk costs. Additionally, the increased productivity and security provided by DIGIPASS FX7 make it a smart investment for any organization looking to improve security and operational efficiency.

CERTIFICATION AND COMPLIANCE			
<b>Short-term storage temperature</b>		<b>Vibration</b>	
-10° C to 50° C 90% RH non-condensing	IEC60068-2-78 (damp heat) IEC60068-2-1 (cold)	10 to 75 Hz 10 m/s²	IEC60068-2-6 EN55035
<b>Operating temperature</b>		<b>Drop</b>	
0° C to 45° C 85% RH non-condensing	IEC60068-2-78 (damp heat) IEC60068-2-1 (cold)	1 meter	IEC60068-2-31
<b>Immunity</b>		<b>Emission</b>	
4 kV contact discharges 8 kV air discharges 3 V/m from 80 to 1000 MHz	EN55035	EN55032	
<b>Compliant with European directives</b>		<b>Compliant with Federal Communications Commission</b>	
CE: 89/336/EEC or 2004/108/EC RoHS: 2002/95/EC WEEE: 2012/19/EU		FCC ID: 2AH88-FX1B IC: 27700-FX1B	

TECHNICAL SPECIFICATIONS	
<b>Size</b>	36.1 mm x 17.2 mm x 7.0 mm (L x W x H)
<b>Weight</b>	3g
<b>FIDO</b>	FIDO U2F, FIDO2.1, CTAP2.1
<b>Connector</b>	USB-C
<b>Power Supply in Connected Mode</b>	Via USB-C 4.40 to 5.50 volts
<b>Dust &amp; Water Resistance</b>	Dust-safe Splash-proof

### About OneSpan

OneSpan is a global leader in digital security, trusted by thousands of enterprises across 100+ countries—including more than 60% of the world’s 100 largest banks—to safeguard digital accounts, secure financial transactions, and prevent fraud. Our award-winning solutions provide passwordless authentication, digital transaction security, and advanced mobile application protection, helping organizations meet the highest security standards and global compliance requirements. As cyber threats grow more sophisticated, OneSpan delivers cutting-edge technology to safeguard customers, mitigate risks, and ensure trust in every digital interaction.
